~ Stockcows ~

This sale will feature some very nice dispersions that will raise you a top set of calves. Also, there is several honest herd reductions that could be due to loss of summer grazing, cows falling out of preferred calving dates and older age groups

selling to make room for younger genetics. Cows will be current on preg check and vaccinations will be announced. Again, be sure and call us for more information.

SIBBITT CATTLE CO (325)

Angus & Bwf Stockcows, 4-10 years

Bred to Jorgensen Angus Bulls, Due March 1st, exposed for 60 days. These cows will raise a great set of calves under range and hay & cake conditions. We will have videos available to see cows with their 2018 calves at side.
